## Activities Conducted for the Academic Year 2022-23

### ➤ COACHING FOR GPAT/NIPER/PGCET

### CIRCULAR

This is to inform all final year B. Pharm students that the special classes for GPAT/NIPER/PGCET will start from 17<sup>th</sup> Oct 2022 as per the schedule given below.

#### Timings:

SNO	Subject	Faculty
1.	Pharmacology	M.Kavitha
2.	Pharmaceutics	G.R.Prasanna Laxmi and Hari Anushree
3.	Pharmaceutical Chemistry	Mrs. V. Padmaja
4.	Pharmaceutical Analysis	Mrs. R.Swetha Sri
5.	Pharmacognasy	Dr. Sudha Parimala

#### GPAT Schedule for Pharmacology and Related Subjects

Date	Subject	Syllabus
28/10/2022 GPAT. Pharmacology Part test I	HAP, Pathophysiology Pharmacology	<p><b>HAP:</b> Cell physiology Cell, Cell junctions, transport mechanisms, homeostasis, ion channels, secondary messengers. Autonomic nervous system Physiology and functions of the autonomic nervous system. Mechanism of neurohumoral transmission in ANS.</p> <p><b>Pathophysiology:</b> Basic principles of cell injury and adaptation Causes, pathogenesis and morphology of cell injury, apoptosis and necrosis.</p> <p><b>Pharmacology:</b> 1.General Pharmacology Introduction to Pharmacology. Pharmacogenetics. Adverse drug reactions. Discovery and development of new drugs- Preclinical and clinical studies</p>

		2. Pharmacology of peripheral nervous system Parasympathomimetics, Parasympatholytics, Sympathomimetics, Sympatholytics, Ganglionic stimulants and blockers. Neuromuscular blocking agents and skeletal muscle relaxants (peripheral). Local anesthetic agents. Drugs used in Myasthenia Gravis.
29/10/2022		Discussion on the question paper
31/10/2022 GPAT. Pharmacology Part test II	HAP,  Pathophysiology  Pharmacology	<b>HAP:</b> Central Nervous system Functions of different parts of  the brain and spinal cord. Neurohumoral transmission in the central nervous system, reflex action, electroencephalogram, specialized functions of the brain, cranial nerves and their functions Neurohumoral transmission in the C.N.S with special emphasis on Pharmacology of various neurotransmitters. Nitric oxide: Biosynthesis of nitric oxide and its physiological role. Therapeutic use of nitric oxide and nitric oxide donors. Clinical condition in which nitric oxide may play a part. Peptides and proteins as mediators: General Principal of peptide pharmacology Biosynthesis and regulation of peptides Peptide antagonists. Protein and peptide as drugs. <b>Pathophysiology:</b> Pathophysiology of common diseases Parkinsonism. Schizophrenia. Depression and mania <b>Pharmacology:</b> Pharmacology of central nervous System

## Report:

RBVRR Women's College of Pharmacy conducted coaching classes for competitive exams for final year B. Pharm students. The classes are specially designed for B Pharm IV year with the aim of providing the concepts of the subjects and tips for the preparation for NIPER, GPAT and PGCET.

Outcomes:

➤ To perform well in competitive examination to get good ranks.

➤ To prepare the students in acquiring the skills to qualify the exam.

*M. S. Kantu*

➤ To orient the students in their preparation as per type of competitive exam.

The crash course is especially designed for the students who are going to be enrolled in the NIPER/GPAT/PGE CET competitive exam.

The training session includes the modules on

- Entire syllabus of the competitive exams
- Mock tests for students covering individual subjects and all subjects along with regular schedule of classes

Apart from these a mock test was organised by IQAC Cell in association with alumni of RBVRRWCoP to prepare students to perform well in exams.

Students expressed their satisfaction and expressed need of more such programs. About 65 students participated in the training session.

## Carrer Opportunity

### CIRCULAR

This is to inform all students that an online session on "Career opportunities for Pharmacy professionals" by Rao.V.S.V Vadlamudi, President, common wealth pharmacist association, will be held on 6<sup>th</sup> Dec 2022, at 11:00AM at Seminar Hall. Hence all the students are hereby informed to attend the guest lecture and utilise the opportunity without fail.

#### Report:

Topic: Career opportunities for pharmacy professionals.

Date: 6<sup>th</sup> Dec 2022

Time: 11: 00 am

Speaker: Rao.V.S.V Vadlamudi, President of the Commonwealth Pharmacists Association

#### Introduction:

Career Opportunities for Pharmacy Professionals" by Rao.V.S.V Vadlamudi, President of the Commonwealth Pharmacists Association, outlined a diverse range of career paths available to pharmacy professionals globally.

#### Key points covered:

He said community pharmacist is the most traditional career path for pharmacists. Working in community pharmacies involves dispensing medications, providing advice on over-the-counter products, managing inventory, and offering health promotion services. He added Hospital pharmacists work within healthcare teams to ensure the safe and effective use of medications for inpatients and outpatients. They may be involved in drug distribution, clinical services, medication therapy management, and participation in medical rounds. Pharmacists play vital roles in pharmaceutical companies, including drug development, regulatory affairs, clinical research, medical affairs, pharmacovigilance, and sales and marketing. Opportunities exist in both research and development (R&D) and commercial sectors. Many pharmacists pursue careers in academia, teaching future pharmacists and conducting research in various areas such as pharmacology, pharmaceuticals, pharmacotherapy, and pharmacy practice. They may work in universities, colleges, research institutes, or government agencies. With the increasing use of technology in healthcare, there is a growing demand for pharmacists with expertise in pharmacy informatics. They develop and implement technology solutions to

improve medication use, safety, and workflow efficiency. Pharmacists can contribute to global health initiatives by working with NGOs, international organizations, or humanitarian agencies. They may be involved in providing medication access, medication management programs, or public health education in underserved communities.

## Conclusion:

He concluded saying these are just some of the career opportunities available to pharmacy professionals. The field of pharmacy is dynamic and continually evolving, offering diverse paths for professionals to contribute to healthcare and improve patient outcomes.

## Report:

On 13th October 2022, RBVRR Women's College of Pharmacy hosted a seminar focusing on "Career Opportunities and Interview Skills." The seminar aimed to provide students with insights into various career paths within the pharmaceutical industry and equip them with essential interview skills. The session was conducted by Mr. G.S. Nagender, General Manager at Indochem Technologies, Secunderabad. Mr. Nagender commenced the session by providing an overview of the diverse career opportunities available in the pharmaceutical sector. He highlighted key roles such as research and development, production, quality control, regulatory affairs, sales, and marketing. He emphasized the importance of understanding each role's responsibilities and requirements to make informed career choices. Leveraging his extensive experience in the pharmaceutical industry, Mr. Nagender shared insights into current industry trends, challenges, and opportunities. He discussed the growing demand for skilled professionals in areas such as biotechnology, regulatory compliance, and pharmaceutical sales, providing students with a realistic view of the industry landscape. The session focused on essential interview skills necessary for students to succeed in their job search. Mr. Nagender shared tips on resume writing, effective communication, body language, and handling common interview questions. He emphasized the importance of showcasing one's strengths and achievements confidently during interviews. The seminar on "Career Opportunities and Interview Skills" by Mr. G.S. Nagender was highly informative and beneficial for the students of RBVRR Women's College of Pharmacy. It provided them with valuable insights into the pharmaceutical industry's dynamics and equipped them with essential skills for securing employment.
