Green campus initiatives

Restricted Entry of Automobiles:

The staff and students are restricted to use their automobiles inside the college during the working hours. Vendors, parents, visitors are restricted to enter inside the college campus using automobiles and are asked to park their vehicles outside the gate of the campus.

Public Transport: Our Institute is located in the Barkathpura Road and is well connected from all areas of Hyderabad city and suburbs by public transport facilities like Metro Train and Bus terminus. Nearest Train station is Kacchiguda at 1km distance and Bus terminus is at ½ km distance from the institute gate. Most of the day scholars and faculty members use public transport only – either bus or train- for daily commuting.

Pedestrian-friendly Pathways:

The pathways inside the campus are well maintained and pedestrians can walk safely through the campus .

Pedestrian friendly pathways are properly marked with suitable sign boards. Many of the non-teaching staff and students in and around the location daily walk down to college. Security Guards at the gates keep a watch on the entry of vehicles and crossing into the campus. All vehicles should be parked in the respective places allotted by the security and they are not allowed to enter beyond the barricade placed at the entrance of the campus, unless if there is an emergency or special case

Displays board “ban on the use of plastics”

Ban on the use of plastics. Sustaining cleanliness is the essential part of healthy living because it is hygienic and helps us to develop our personality by keeping us clean externally and internally. RBVRRWCP consequently made the decision to ban plastic on campus. Inside the campus, steel glasses, plates, and spoons are used in place of the usual paper cups, plastic plates, and plastic spoons. We established a "Plastic Freezone" to raise awareness among the community at large about the need to stop pollution and leave a clean, green environment for future generations.

Landscaping trees and plants: There are a number of trees and plants in the campus that create an eco-friendly environment and create a positive impact on the stakeholders, who engage themselves with the institution by participating in several plantation activities.

The institution has a medicinal garden consisting of several plants. It was established to cultivate and maintain medicinal plants for educational and research purposes.

The prime objective is to maintain a conservatory of the most common and important species of medicinal and aromatic plants which have significance in day-to-day primary health care
