About the College

The College was established in the year 2006 by the "Hyderabad Mahila Vidya Sangham" to provide education to girl students. The college is self-financed, approved by PCI and affiliated to Osmania University. The College is organizing seminars, guest lectures and workshops in various disciplines which is a continuous process of RBVRR Women's College of Pharmacy, to impart knowledge and skills necessary for Pharmaceutical Education, Research and Development.

VISION

To be a National Women Pharmacy Professional leader in transforming lives through innovative, vigorous and compassionate approach to Pharma education.

MISSION

RBVRRWCP preparing and empowering girl students by providing continuous awareness programmes to succeed in changing world apart from regular curriculum.

About the Conference

The conference will highlight the transformative potential of Artificial Intelligence (AI) in drug discovery and manufacturing. Discussions will focus on how AI can optimize molecular structures and predict drug efficacy and toxicity, featuring insights from eminent personalities in the field. AI has the potential to accelerate development timelines, reduce costs, and improve the likelihood of successful drug approvals. This, in turn, can enable life-saving treatments to reach patients more quickly and efficiently.

AI-driven approaches in personalized medicine will be explored, aiming to tailor treatments to the individual needs of patients and improve overall health outcomes. By leveraging AI in drug discovery and manufacturing, the pharmaceutical industry can unlock new opportunities for innovation, growth, and enhanced patient care.
